

”For the Universe to Hear”

by John Welton

© 1999

**I'm calling out to anyone who will listen
Please hear these words as simple as they are
It's not too late to turn it all around
but it won't be long before we've gone too far**

**Gone too far, away from who we really are
There's no time like this time to begin
One man could change the whole world from within**

**I'm singing out won't you sing along?
In harmony "For the Universe to Hear"
It sounds the same in every language
It's the melody of man-kind ringing in your ear**

**There's no time like this time to begin
One man could change the whole world...**
